

2022 CAP, Inc. (College Assistance Program) Grants | Application Guidelines

History

In 1977, the Miami-Dade County Public School System started a pilot advisory program with 10-12 part-time college assistance advisors. They were in the school system tasked with helping students find potential financial aid opportunities. The following year, CAP, Inc. was founded to financially support the Miami-Dade County Public School's College Assistance Program (CAP) and awarding scholarships to graduates that needed significant financial assistance to attend college.

CAP, Inc. provides scholarships to Miami-Dade County Public High School graduates who have exhausted all avenues of financial assistance (federal, state, and institutional), but still have significant unmet needs to attend the college of their choice.

2022 CAP Grants Application (Continued)

Review + Awards Process:

- A completed application does not guarantee funding. It only guarantees review and consideration.
- **Awards are made for attendance at the educational institution you indicate in the application. Because they are based on unmet need for full-time enrollment at specific school, they are not transferable to another institution after grant is awarded. If an award is made and you transfer schools, or enroll less than full time, the award will be withdrawn.**
- Grants are not automatically renewed. You must re-apply each year.
- A committee will review and rate the applications and make final decisions on scholarship awards. Students will be notified of whether they have been selected to receive a scholarship via email by July.
- **We will use the email address you provide in your application to notify you.** Please be sure it is correct.

Your explanation may include additional sources of funding not included on the "unmet need" worksheet, or efforts that you will make to reduce your college costs.
